

# Operation Ukraine

## Medical Equipment Donation List

Operation Ukraine will send a 40' container of medical supplies to the Children's Hospital and Maternity Hospital in Artemovsk on December 10, 2007.

**Whatever monies we raise towards items on this list BY WED., DECEMBER 5, 2007 will also be put into that container!** If you would like to donate an amount that does not cover a piece of equipment, it will be used in combination with other donations towards purchase of what is needed most urgently.

**Lives of newborns, mothers and children in our orphanages and in Artemovsk in general will be SAVED because of this equipment – they have none of this currently. Thank you for your donations!**
